

Efficiency retrofit.

3SN BASKET UPGRADE KIT

Upgrade kit for K2300 continuous centrifugals.

Better performance. Less energy consumption.

By improving the design and manufacture of the basket, the overall performance of the K2300 continuous centrifugal has been considerably enhanced.

The innovative elliptical discharge openings facilitate the syrup flow from the basket, achieving energy savings of up to 20 %*. As the fitting dimensions are the same as before, the existing screens can still be used.

Benefits

- Basket is easy to replace
- Energy savings of up to 20 %*
- Throughput increased by up to 15 %*
- Enhanced strength

* Compared to the K2300 without the 3SN basket

The upgrade kit comprises

- Basket incl. backing screen and clamping ring
- Cover screens can be supplied on request
