

Smooth running.

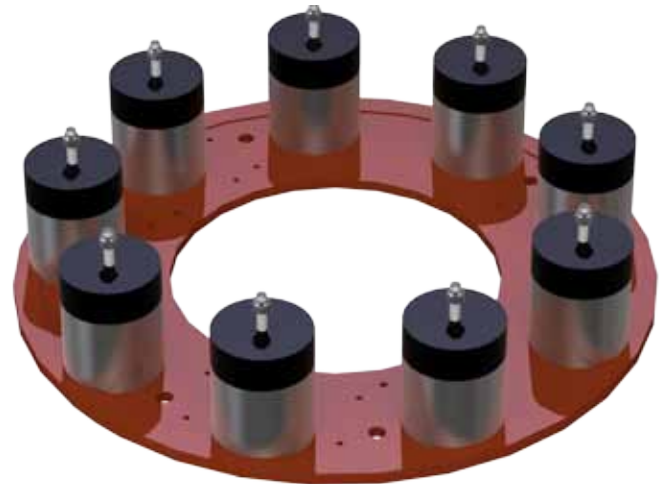

RUBBER BUFFER UPGRADE KIT
Support for K1-series continuous centrifugals.

Running smoothly. Low maintenance.

The latest generation of rubber buffers for K1-series centrifugals will immediately improve the running characteristics of your older machines. As well as lengthening centrifugal service life, this also reduces maintenance costs.

Benefits

- Longer service life
- Reduced maintenance costs
- Quick to replace
- Better load distribution
- Low-vibration running
- Protects the anti-friction bearings

The upgrade kit comprises

- Set of rubber buffers
- Spacer blocks
- Assembly material
- Assembly plans

Installation should be supervised by a BMA centrifugal specialist.
